FULL STACK DEVELOPER IN TRAINING

Systems Analyst in training · Correios professional

PROFESSIONAL SUMMARY

Correios (Brazilian postal service) professional for over 13 years, hired through a public civil-service exam with a record of responsibility and operational commitment, now moving into technology. Studying Systems Analysis and Development and building real applications end to end (interface, Go API, database and deployment with Docker and Nginx), from internal logistics tools to products of my own. Analytical and solution-oriented, I combine field experience with software development.

PROFESSIONAL EXPERIENCE

Postal Agent — Motorized Mail Carrier — Permanent

Correios (ECT) · Mar 2013 – Present · Campos dos Goytacazes, RJ, Brazil

Delivery of mail and parcels as a driver, with punctuality, route organization and customer service. Over 13 years of hands-on knowledge of the logistics operations and systems of the company, which is the basis for the improvement projects I build today.

PROJECTS

Logistics Guide — Campos dos Goytacazes distribution center — 2026 · internal use

React · Go · PostgreSQL · Leaflet · PWA

System that digitizes maps, streets, routes and operational organization for the distribution center, replacing paper maps with an interactive map available on any device. Restricted access.

Cadência — 2026

Cycling training · planning · cadencia.devsaulo.com.br

Smart cycling training that respects availability, experience, recovery and progress, with explainable decisions and protected data.

Let's Go Run — 2026

Running · training plans · letsgorun.devsaulo.com.br

Running plans that adapt to your routine, your body and your next race, from the first 5K to the marathon, in Portuguese and English.

Inventory Control — 2026

React · Go · SQLite · Docker · estoque.devsaulo.com.br

Organizes products, minimum stock levels, invoice imports and authenticated access in an operation that is simple to follow.

Expense Tracker — 2026

Finance · organization · despesas.devsaulo.com.br

Organizes and follows personal finances more clearly, turning everyday records into the big picture.

Improvement for the Correios Delivery App (SRO Operacional)

2026 · in progress

Feature proposal

Proposal for the internal app that lets the mail carrier notify the recipient via WhatsApp before a delivery attempt, to reduce failed deliveries caused by absence.

EDUCATION

Systems Analysis and Development

In progress

Estácio de Sá · Bachelor's degree · 2026 – Present · Campos dos Goytacazes, RJ, Brazil
